and globalization. Existing theoretical works that deal with the intersection of globalization and communication fail to properly address the need for a clearer and more comprehensive approach to the study of globalization. This book is an introduction to globalization as an emergent and independent field of study.

Chapter 5, "Home and the World," examines the relationship between globalization and identity. It explores how globalization affects the sense of place, the attachment to the home, and the relationship between the local and the global.

Chapter 6, "Globalization and Education," examines the impact of globalization on education systems around the world. It discusses how globalization is changing the way education is delivered and accessed, and the implications for lifelong learning.

Chapter 7, "Globalization and the Environment," examines the role of globalization in environmental change and sustainability. It explores how globalization is affecting the environment, and the challenges and opportunities for sustainable development.

Chapter 8, "Globalization and Health," examines the impact of globalization on health and healthcare systems. It discusses how globalization is affecting the spread of diseases, the availability of healthcare, and the challenges of global health equity.

Chapter 9, "Globalization and Development," examines the impact of globalization on economic development. It discusses how globalization is affecting the structure of the global economy, and the challenges and opportunities for development in the contemporary world.
